

# Sherburn Against Speeding (SAS)

(Sherburn Parish Council)

Alarm didn't go off? Late for work? Worried that the kids might miss their first lesson at school?  
It happens to everyone at sometime....Best get a "Wiggle On" then!

But it's too late to consider the consequences of your actions when your need to rush through the village has caused an accident or even worse a fatality.

## IT'S AN ACCIDENT WAITING TO HAPPEN

So what are you doing about it? Sherburn Parish Council has already started to act, but.....

### **We need your help**

Sherburn Parish Council want to work with you to keep our community safe from speeding traffic and to avoid accidents.....so here's our Action Plan

- NEED - We need a "Long Term" speed reduction solution.
- AIMS – Prevent Accidents and Fatalities and keep the roads safe.
- OBJECTIVE – Identify the "Key Risk Areas" and "Offenders"
- METHOD – Speed survey, Community policing, Street calming measures, Radar speed identification, Police involvement, Prosecution.
- IMPLEMENTATION – Immediate action with a Police speed survey and physical measures to slow traffic and reduce speeding in Sherburn.
- EVALUATION – Regular spot checks by the Police and Community speed policing at least monthly.

### SO HOW CAN YOU HELP?

We need the following –

- Tell us where the speeding is at its worst in our village.
- Volunteer to help with the new Community Speed Watch (CSW).
- The Parish Council are purchasing Speed awareness stickers for display on our wheelie bins. Stick them on as soon as you receive one and help with speed prevention simply by putting your bin out as normal.
- Help us to develop community awareness of safety and speed
- Provide us with workable actions and ideas that we can implement.
- When we've done it together..... lets continue working together to "Keep It Live"

**DON'T LET THIS BE YOUR CHILD**
